§ 702.402 *Rice*—(a) *State allotment.* The State allotment of rice for Hawaii is 900 acres.

(b) *Farm allotments.* The State office shall establish rice acreage allotments in accordance with the provisions of this subsection and instructions issued by the Agricultural Adjustment Agency.

(1) A rice acreage allotment shall be determined for each producer who is participating in the production of rice in 1943 and who participated in the production of rice in one or more of the five years 1938 to 1942, inclusive, on the basis of his past production of rice adjusted to the available acreage adapted to the production of rice, taking into consideration crop-rotation practices, soil fertility and other physical factors affecting the production of rice, including the labor and equipment available to him for the production of rice.

(2) An acreage not to exceed 3 percent of the State rice acreage allotment shall be apportioned among producers who are participating in the production of rice in 1943 for the first time since 1937 on the basis of the applicable standards of apportionment set forth under subparagraph (1) of this paragraph (b); Except, that the rice acreage allotment to any producer who is participating in the production of rice in 1943 for the first time since 1937 shall not exceed 75 percent of the rice acreage allotment that would have been made to him had he participated in the production of rice in one or more of the five years 1938 to 1942, inclusive.

(3) The farm rice acreage allotment will be the sum of the allotments established for all producers participating in the production of rice on the farm. The sum of the farm allotments shall not exceed the State allotment.

(c) *Normal yield.* The State office shall determine for each farm participating in the 1943 program in the State a normal yield for rice in accordance with the provisions of this subsection and instructions issued by the Agricultural Adjustment Agency.

(1) Where reliable records of the actual yield of rice per acre for the five years 1938 to 1942, inclusive, are presented by the farmer or are available to the State office, the normal yield of rice for the farm shall be the average of these yields.

(2) If for any year of this five-year period records of the actual yield are not available or there was no actual yield because rice was not planted on the farm in that year, the State office shall ascertain from all the available facts, including the yield customarily made on the farm, weather conditions, type of soil, drainage, production practices, and general fertility of the land, the yield which was or could reasonably have been expected on the farm for that year, and the yield so determined shall be used as the actual yield for that year under subparagraph (1) of this paragraph (c).

(3) If the average of the normal yields for all farms participating in the 1943 program in the State (weighted by the

rice acreage allotments therein) exceeds the average yield per acre for the State during the five years 1938 to 1942, inclusive, established by the Administrator, the normal yields for these farms, determined under subparagraphs (1) and (2) of this paragraph (c), shall be reduced pro rata so that the average of the normal yields shall not exceed the State average yield.

(d) *Payment in connection with rice acreage allotment.* Payments will be made at the rate of 2.0 cents per 100 pounds (rough rice) of the normal yield of the farm for each acre in the rice acreage allotment.

(e) *Deduction in connection with rice acreage allotment.* The payment computed for any farm under §§ 702.401 and 702.402 shall be subject to a deduction of ten times the payment rate for each acre by which the acreage of rice planted is less than its rice allotment, but not to exceed the maximum rice payment computed for the producer on that farm.

§ 702.403 *Tobacco*—(a) *State allotment.* The State allotment of tobacco for Puerto Rico will be established by the Administrator.

(b) *Farm allotments.* The State office shall establish tobacco acreage allotments in accordance with the provisions of this subsection and instructions issued by the Agricultural Adjustment Agency.

(1) A tobacco acreage allotment for the 1943-44 crop shall be determined for each farm for which a tobacco acreage allotment was, or could have been, established under the 1942 Agricultural Conservation Program on the basis of the tobacco acreage allotment which was, or could have been, established for the farm under the 1942 Agricultural Conservation Program, the land, labor, and equipment available for the production of tobacco, crop-rotation practices, and the soil and other physical factors affecting the production of tobacco.

(2) The tobacco acreage allotment for any farm on which tobacco is produced in the 1943-44 tobacco season for which no allotment can be established under subparagraph (1) of this paragraph (b) shall be determined on the basis of the land, labor, and equipment available for the production of tobacco, crop-rotation practices, and the soil and other physical factors affecting the production of tobacco.

(3) The sum of the farm acreage allotments shall not exceed the State allotment.

(c) *Normal yield.* The State office shall determine for each farm for which an acreage allotment is established under subsection (b) of this section a normal yield for tobacco in accordance with instructions issued by the Agricultural Adjustment Agency.

(1) If the average of the normal yields established for all farms (weighted by the tobacco acreage allotments therein) exceeds the adjusted average yield (farm weight) per acre for the State during the five crop years 1938-1939 to 1942-43, inclusive, the normal yields for these farms shall be reduced pro rata so that the average of the normal yields shall not exceed this figure. The adjusted average

yield will be established by the Administrator prior to the 1943-44 tobacco season.

(d) *Payment in connection with tobacco acreage allotment.* Payment will be made on the basis of the normal yield (farm weight) of the farm for each acre in the tobacco acreage allotment: *Provided*, That, where the tobacco acreage allotment for the farm has not been planted in full, no payment will be made unless an acreage equal to the tobacco acreage allotment or the unplanted part thereof (in addition to the minimum requirement under Practice No. 1) has been planted to one or more of the food crops specified by the regional director under § 702.401 (e) (1). (Minimum performance under Practice No. 1 for Puerto Rico is a prerequisite to any payment under the tobacco provision of the 1943 Agricultural Conservation Program for Puerto Rico.)

(e) *Deduction for excess tobacco acreage.* The payment computed for any farm under §§ 702.401 and 702.403 shall be subject to a deduction based on the normal yield (farm weight) of the farm for each acre planted to tobacco in excess of the tobacco acreage allotment established for the farm. The rate of deduction will be established by the Administrator prior to the beginning of the 1943-44 tobacco season.

§ 702.404 *Division of payments and deductions—(a) Payments in connection with production practices.* The amount of payment earned in connection with production practices carried out on the farm shall be made to the landlord, tenant, or sharecropper who carried out the production practices thereon. If more than one such person contributes to the carrying-out of production practices on the farm in 1943, the payment shall be divided in proportion to the contribution made by each person contributing to the practices carried out on the farm in 1943. All persons contributing to any practice carried out on a particular acreage shall be deemed to have contributed equally to the carrying out of that practice unless they establish to the satisfaction of the State office that their respective contributions thereto were not in equal proportion, in which event the participation shall be determined by the proportion which the State office finds each person contributed thereto. Contribution of land shall not be considered as contributing to the carrying out of a practice.

(b) *Payments and deductions in connection with rice and tobacco acreage allotments.* The net payment or net deduction computed for any farm with respect to the rice or tobacco acreage allotment shall be divided among the landlords, tenants, and sharecroppers in the same proportion (as indicated by their acreage shares expressed in terms of either acreages or percentages) that these persons are entitled at the time of harvest to share in the proceeds (other than a fixed commodity payment) of the rice crop grown on the farm in 1943 or the tobacco crop grown on the farm in the 1943-44 tobacco season: *Provided*, That, if rice is not grown on the farm in 1943 or tobacco is not grown on the farm

in the 1943-44 tobacco season, the net payment or net deduction shall be divided among the landlords, tenants, and sharecroppers in the proportion that the State office determines that these persons would have shared in the proceeds of the rice or tobacco crop if the entire acreage in the rice or tobacco acreage allotment had been planted and harvested, for rice, in 1943, or, for tobacco, in the 1943-44 tobacco season: *Provided further*, That, if because of crop failure the harvested acreage of tobacco is less than the planted acreage of the crop and the State office finds, in accordance with instructions issued by the Agricultural Adjustment Agency, that use of the harvested acreage as a basis for the division of the net payment or net deduction would result in a materially different division from that which would result from the use of the planted acreage, the net payment or net deduction shall be divided among the landlords, tenants, and sharecroppers in the proportion that the State office determines that these persons would have shared in the proceeds of the tobacco crop if the entire acreage planted to the crop in the 1943-44 tobacco season had been harvested: *Provided further*, That in cases where landlords, tenants, or sharecroppers, after planting but prior to harvest, lose their interest in a rice or tobacco crop by reason of acquisition of title to or lease of the farm for use in connection with the national war effort, the net payment (less any compensation for the loss of payment) or the net deduction computed with respect to the crop shall be divided among such persons in the same proportion that the State office determines that such persons would have been entitled, as of the time of harvest, to share in the proceeds of the crop except for such acquisition of title or lease.

(c) *Proration of net deductions.* If the sum of the net payments computed for all persons on a farm exceeds the sum of the net deductions computed for all persons on the farm, the sum of the net deductions computed for all persons on the farm shall be prorated among the persons on the farm for whom a net payment is computed, on the basis of the computed net payments. If the sum of the net deductions computed for all persons on a farm equals or exceeds the sum of the net payments computed for all persons on the farm, no payment will be made with respect to this farm and the amount of the net deductions in excess of the net payments shall be prorated among the persons on the farm for whom a net deduction is computed, on the basis of the computed net deductions.

§ 702.405 *Increase in small payments.* The total payment computed under §§ 702.401 to 702.403, inclusive, for any person with respect to any farm shall be increased as follows:

(a) Any payment amounting to 71 cents or less shall be increased to \$1.00;

(b) Any payment amounting to more than 71 cents but less than \$1.00 shall be increased by forty percent;

(c) Any payment amounting to \$1.00 or more shall be increased in accordance with the following schedule:

§ 702.406 *Payments limited to \$10,000.* The total of all payments made in connection with programs for 1943 under section 8 of the Soil Conservation and Domestic Allotment Act to any individual, partnership, or estate with respect to farms, ranching units, and turpentine places located within a single State, Territory, or possession, shall not exceed the sum of \$10,000. The total of all payments made in connection with such program to any person other than an individual, partnership, or estate with respect to farms, ranching units, and turpentine places in the United States (including Alaska, Hawaii, and Puerto Rico) shall not exceed the sum of \$10,000.

All or any part of any payment which has been or otherwise would be made to any person under the 1943 program may

be withheld or required to be returned if he has adopted or participated in adopting any scheme or device, including the dissolution, reorganization, revival, or formation of any corporation, partnership, estate, trust, or any other means, which was designed to evade, or would have the effect of evading, the provisions of this section.

§ 702.407 *Deductions incurred on other farms.* If the deductions computed under §§ 702.402 and 702.403 with respect to any farm exceed the payment computed under §§ 702.401, 702.402, and 702.403 for full performance on the farm, a landlord's or tenant's share of the amount by which the deduction exceeds the payment shall be deducted from the payments which would otherwise be made to him with respect to any other farms in Hawaii or Puerto Rico (considering only farms located in the same one of these areas) if the State office concerned finds that the crops grown and practices adopted on the farm or farms with respect to which the deductions are computed substantially offset the contribution to the program made on the other farms.

§ 702.408 *General provisions relating to payments.*—(a) *Payment restricted to effectuation of purposes of the program.* All or any part of any payment which is made or otherwise would be made to any person under the 1943 program may be withheld or required to be returned (1) if he adopts or had adopted any practice which tends to defeat any of the purposes of the 1943 or previous agricultural conservation programs, (2) if, by means of any corporation, partnership, estate, trust, or any other device, or in any manner whatsoever, he has offset, or has participated in offsetting, in whole or in part, the performance for which the payment is otherwise authorized, or (3) if, with respect to grazing land, forest land, or woodland owned or controlled by him, he adopts or has adopted any practice which the regional director finds is contrary to sound conservation practices.

Payments other than payments in connection with production practices will be made only with respect to farms which are being operated in 1943.

(b) *Payment computed and made without regard to claims.* Any payment or share of payment shall be computed and made without regard to questions of title under Territorial law, or the laws of Puerto Rico, without deduction of claims for advances (except as provided in paragraph (d) of this § 702.408 and for indebtedness to the United States subject to setoff under orders issued by the Administrator) and without regard to any claim or lien against any crop, or proceeds thereof, in favor of the owner or any other creditor.

(c) *Changes in leasing and cropping agreements, reduction in number of tenants, and other devices.* If on any farm in 1943 any change of the arrangements which existed on the farm in 1942 is made between the landlord or operator and the tenants or sharecroppers and this change would cause a greater proportion of the payments to be made

to the landlord or operator under the 1943 program than would have been made to him for performance on the farm under the 1942 program, payments to the landlord or operator under the 1943 program with respect to the farm shall not be greater than the amount that would have been paid to him if the arrangements which existed on the farm in 1942 had been continued in 1943, unless the State office certifies that the change is justified and approves it.

If on any farm the number of sharecroppers or share tenants in 1943 is less than the average number on the farm during the years 1940 to 1942, inclusive, and the reduction would increase the payments that would otherwise be made to the landlord or operator, payments to the landlord or operator shall not be greater than the amount that would otherwise be made, unless the State office certifies that the reduction is justified and approves it.

If the State office finds that any person who files an application for payment pursuant to the provisions of the 1943 program has employed any other scheme or device (including coercion, fraud, or misrepresentation), the effect of which would be or has been to deprive any other person of any payment under any agricultural conservation program to which the latter would normally be entitled, the Administrator may withhold in whole or in part, from the person participating in or employing such a scheme or device, or require him to refund, in whole or in part, the amount of any payment which has been or would otherwise be made to him in connection with the 1943 program.

(d) *Assignments.* Any person who may be entitled to any payment in connection with the 1943 program may assign his interest in the payment, in whole or in part, as security for cash loaned or advances made for the purpose of financing the making of a crop in 1943. No assignment of this kind will be recognized unless it is made in writing on Form ACP-69 in accordance with the instructions (ACP-70-Revised) issued by the Agricultural Adjustment Agency and unless such assignment is entitled to priority as determined under the instructions governing the recording of such assignments issued by the Agricultural Adjustment Agency.

Nothing contained in this paragraph (d) shall be construed to give an assignee a right to any payment other than that to which the farmer is entitled nor shall the Administrator or any disbursing agent be subject to any suit or liability if payment is made to the farmer without regard to the existence of an assignment.

(e) *Deductions in case of erroneous notice of acreage allotment.* Notwithstanding the deduction provisions of §§ 702.403 and 702.404, in any case where, through error in a State office, the producer was officially notified of an allotment for a commodity larger than the finally approved allotment for that commodity and the State office involved finds that the producer, acting upon information contained in the erroneous notice, planted an acreage to the commodity in excess of the finally approved allotment,

the producer will not be considered to have exceeded the allotment for such commodity unless he planted an acreage to the commodity in excess of the acreage stated in the notice erroneously issued, and the deduction for excess acreage will be made only with respect to the acreage in excess of that stated in the notice erroneously issued.

§ 702.409 *Application for payment.*—(a) *Persons eligible to file applications.* An application for payment with respect to a farm may be made by any person for whom, under the provisions of § 702.404, a share in the payment with respect to the farm may be computed and (1) who at the time of harvest is entitled to the whole of or a share in any of the crops grown, or its proceeds, or livestock produced on the farm under a lease or operating agreement or as owner-operator, or (2) who is owner or operator of the farm and participates thereon in 1943 in carrying out approved production practices.

(b) *Time and manner of filing application and information required.* Payment will be made only upon application submitted through the respective State offices on or before March 31, 1944, except that the timely filing of an application by one person on a farm shall constitute a timely filing on behalf of all persons on that farm. Payment may be withheld from any person who fails to file any form or furnish any information required with respect to any farm which he is operating or renting to another person for a share of the crops grown thereon or for cash or standing rent. Any application for payment may be rejected if any form or information required is not submitted to the State office within the time fixed by the regional director. At least two weeks' notice to the public shall be given of the expiration of a time limit for filing prescribed forms or required information, any time limit to be such as affords a full and fair opportunity to those eligible to file the form or information within the period prescribed. Notice shall be given by mailing it to the office of each county agricultural extension agent and making copies of it available to the press.

(c) *Application for other farms.* If a person has the right to receive all or a portion of the crops, or proceeds therefrom, produced on more than one farm in Alaska, Hawaii, or Puerto Rico (considering only farms located in one of these areas) and makes application for payment with respect to one of these farms, he must make application for payment with respect to all these farms which he operates or rents to other persons and on which rice is planted in 1943 or tobacco is planted in the 1943-44 tobacco season and a deduction is computed.

(d) All calculations involving land area in Puerto Rico will be made on the basis that one cuerda equals 0.97 acre.

§ 702.410 *Appeals.* Any person may, within fifteen days after notice thereof is forwarded to or made available to him, request the State office in writing to reconsider its recommendation or determination with respect to any of the

following matters affecting any farm in which he has an interest: (a) eligibility to file an application for payment; (b) acreage allotment or normal yield of rice or tobacco; measurement; or production practice allowance; (c) the division of payment; or (d) any other matter affecting the right to or the amount of his payment with respect to the farm. The State office shall notify him of its decision in writing within fifteen days after receipt of a written request for reconsideration. If he is dissatisfied with the decision of the State office, he may within fifteen days after the decision is forwarded to or made available to him, request the regional director to review the decision of the State office.

As an adjustment for participation, the rates of payment and deduction with respect to any commodity or item of payment may be increased or decreased from the rates set forth herein by as much as 10 percent.

Chapter XI—War Food Administration

[FDO 55, Amdt. 1]

PART 1405—FRUITS AND VEGETABLES

CALIFORNIA PLUMS

Food Distribution Order No. 55, § 1405.7, issued by the War Food Administrator on June 7, 1943 (8 F.R. 7626) is amended as follows:

1. By deleting from (a) (3) thereof the words "in the current of interstate or foreign commerce, or so as directly to burden, obstruct, or affect such commerce" and inserting in lieu thereof the words "from a point within the State of California to a point outside said State."

2. By inserting in (b) (2), immediately following the words "Branch Office, War Food Administration, 331 Federal Building, P. O. Box 230, Sacramento, California," the words "or to the program manager at such place as he shall designate and of which he shall give public notice."

3. By relettering paragraphs (c), (d), (e), (f), (g), (h), and (i) of said section as paragraphs (d), (e), (f), (g), (h), (i), and (j), respectively.

4. By inserting as paragraph (c) of said section the following:

(c) *Administration.* (1) The Director shall designate a person to act as "program manager" under this order, and shall fix the amount of his salary. Insofar as he performs functions for the United States, the program manager will act under his appointment as collaborator without compensation from the United States, which appointment will be otherwise provided. The program manager shall be subject to removal by the Director at any time, and all his acts shall be subject to the continuing right of the Director to disapprove of the same at any time. Upon such disapproval, his acts shall be deemed null and void except insofar as any other person has acted in reliance thereon or in compliance therewith prior to such disapproval. The program manager is authorized and directed to:

(i) Receive and examine the inspection certificates; compile records of shipments; assemble data with respect to the growing, shipping, and marketing conditions affecting plums; and furnish to the Director such available information as may be requested.

(ii) Keep books and records which will clearly reflect all of his acts and transactions, which books and records shall be subject at any time to examination by the Director.

(iii) Collect the assessments as provided in this order from those persons required by the order to pay such assessments.

(iv) Deliver to the Director promptly after his designation a bond, in an amount and with surety thereon satisfactory to the Director, conditioned upon the faithful performance of his duties under this order.

(v) Employ and fix the compensation of such persons as may be necessary to enable him to perform his duties hereunder.

(vi) Obtain a bond with reasonable surety thereon covering each employe of his office who handles funds under the order.

(vii) Investigate and report to the Director any violation of this order.

(viii) Submit to the Director for approval a budget of expenses hereunder of the program manager and the Advisory Committee.

(ix) Pay out of the funds collected by him as program manager the cost of his bond and of the bonds of his employees, his own compensation and that of his employees, the per diem allowance and traveling expenses of the Advisory Committee, and all other expenses necessarily incurred by him in the performance of his duties hereunder.

(x) Cause his books of account to be audited whenever requested by, and submit a copy of such audit to, the Director.

(2) The Director shall designate seven persons to act on an "Advisory Committee" and an alternate member for each of the members. Any such alternate shall act only in event that the member for whom he is alternate is unable to act. The program manager shall be an additional member ex officio and shall act as chairman of the Advisory Committee. Each member of the committee shall be subject to removal by the Director at any time. The Advisory Committee shall meet at the call of the chairman, or at the call of any four members thereof. The Committee members shall be paid their actual traveling expenses, and each member, except the Program Manager, shall be paid \$5.00 for each day of attendance at a committee meeting. The Advisory Committee shall counsel with the program manager, and shall recommend to the Director such amendments to this order and such changes in the operation thereof as it deems advisable.

(3) Each person who ships plums shall pay to the program manager on demand made by the program manager from time to time the sum of one cent for each hundredweight of plums shipped by such person after May 1, 1943. Any money so collected and remaining in the

possession of the program manager upon the termination of this order shall be distributed in such manner as the Director may order.

This amendment shall become effective the 21st day of July 1943.

[Suspension Order Docket No. FDA-NE-11]

PART 1590—SUSPENSION ORDERS

OLYMPIC CONFECTIONERY

Gust Psychos, an individual doing business as Olympic Confectionery, 103 North Main Street, Coudersport, Pennsylvania (hereinafter referred to as "respondent"), was duly served with a statement of charges and procedure, in which it was alleged that respondent had violated Food Distribution Order 13 (8 F.R. 2530), issued by the Secretary of Agriculture on February 2, 1943, and made effective by him on February 3, 1943, by selling and delivering cream, the milk fat content of which was in excess of 19 per cent. The respondent, in a letter which has been considered as his answer, admitted the commission of the violations alleged in the statement of charges and stated that he did not wish to be heard thereon. The respondent and his employee also executed sworn statements admitting the sales and deliveries of cream in violation of Food Distribution Order 13, as alleged in the statement of charges. Sworn statements executed by a special agent of the Compliance Branch, Food Distribution Administration, War Food Administration, and another investigator corroborate the admissions of the respondent and his employee. An analysis by a commercial testing laboratory of the cream involved in this matter revealed that the milk fat content thereof was 41 per cent.

Upon the basis of these sworn statements, the analysis, and the admissions contained in the answer, the War Food Administrator, acting under authority conferred upon him by Executive Order No. 9334 (8 F.R. 5423), hereby determines, that:

(a) Respondent is a producer as that term is defined in Food Distribution Order 13, doing business as Olympic Confectionery, at 103 North Main Street, Coudersport, Pennsylvania.

(b) Respondent sold and delivered cream, on or about May 2, 1943, at his place of business, known as Olympic Confectionery, 103 North Main Street, Coudersport, Pennsylvania, the milk fat content of which was 41 per cent, in violation of said Food Distribution Order 13, which provides that no producer may deliver cream having a milk fat content in excess of 19 per cent.

Because of the great scarcity of dairy products, including cream, in the normal channels of distribution for the fulfillment of the requirements of the United

States for defense, for private account, and for export, and because of the importance of having dairy products, including cream, distributed in a manner to assure an adequate supply and efficient distribution thereof for war and essential civilian needs, the aforesaid violation by the respondent has impeded the war effort and has, therefore, been contrary to public interest. It also appears that further violations by the respondent are likely unless appropriate action is taken.

It is therefore ordered, That:

§ 1590.2 Suspension order against Gust Psychos, an individual doing business as Olympic Confectionery. (a) The respondent, his agents, successors, or assigns shall not, in any manner, either directly or indirectly, (1) deliver cream to any person; or (2) accept delivery of cream from any person.

[Docket No. A-1548, Part II]

PART 333—MINIMUM PRICE SCHEDULE,
DISTRICT NO. 13MEMORANDUM OPINION AND ORDER OF
DIRECTOR

Memorandum opinion and order of the Director in the matter of the petition of District Board No. 13 for the establishment of price classifications and minimum prices for the coals of the Carr No. 2 Mine (Mine Index No. 1273) of W. C. Carr, and for the coals of the Tennessee Valley Mine (Mine Index No. 276) of R. D. Campbell for all shipments except truck.

This proceeding was instituted upon a petition¹ filed with the Bituminous Coal Division on July 22, 1942, by District Board 13, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, requesting the establishment of price classifications and minimum prices for the coals of certain mines in District No. 13 for which classifications and effective minimum prices have not previously been established. The petition herein proposes the establishment of price classifications and minimum prices for the coals of the Carr No. 2 Mine (Mine Index No. 1273), of W. C. Carr,² and the Tennessee Valley Mine (Mine Index No. 276), of R. D. Campbell, for all shipments except truck.

Pursuant to appropriate order, and after notice to interested persons, a hearing in this matter was held on September 29, 1942, before Travis Williams, a duly designated Examiner of the Division, at a hearing room thereof in

Washington, D. C. Interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard. District Board 13 appeared. The parties waived the preparation and filing of a Report by the Examiner and the record was thereupon submitted to me for consideration.

The Carr No. 2 Mine³ is a small mine recently opened, producing approximately 50 tons daily, and operating in the Wadsworth Seam in St. Clair County, Alabama. Its coal moves to the southeastern market areas of central Tennessee, north Alabama and northwest Georgia. According to N. E. Cross, Secretary of District Board 13, and the only witness at the hearing, there are no other mines in St. Clair County operating in the Wadsworth Seam which ship by rail. There are, however, certain mines in Shelby County, operating in the Wadsworth Seam, which ship by rail,⁴ and the price classifications and minimum prices proposed for the Carr No. 2 Mine are the same as those previously established for the Shelby County mines operating in the Wadsworth Seam. The record further discloses that the Wadsworth Seam in St. Clair County is approximately of the same quality as the Wadsworth Seam in Shelby County.⁵ The witness maintained that the differential between truck and rail prices in Size Groups

13 and 23 as proposed for the Carr No. 2 Mine is the same as that heretofore established for the Shelby County mines operating in the Wadsworth Seam. Finally, the witness testified that the Carr No. 2 Mine is located about six miles from Odenville, the Odenville, the proposed shipping point, which was established as the point of origin by the Interstate Commerce Commission,⁶ and that the prices proposed for railroad locomotive fuel were the same as those established for the Brookston Mine (Mine Index No. 55) in St. Clair County, which is the only other mine connected with the Seaboard railroad.⁷

The uncontested evidence establishes that the coals of the Carr No. 2 Mine of St. Clair County are of similar quality and analytical content, move to similar market areas, and enjoy similar market acceptability as do the coals of the Shelby County mines operating in the Wadsworth Seam referred to above. I find, therefore, that the price classifications and minimum prices for the Carr No. 2 Mine should be correlated with the price classifications and minimum prices of these Shelby County mines.

The petition also requests price classifications and minimum prices for the coals of the Tennessee Valley Mine (Mine Index No. 276) of R. D. Campbell, located in Jackson County, Alabama.⁸ This mine produces approximately 25,000 tons annually, and is located near the Tennessee-Alabama borderline. Originally it was coordinated in price for

³ Also referred to in the record as the Gilson Coal Company Mine.

⁴ Ann Blair Mine (Mine Index No. 134) of Nellie Coal Company, and Pen's Wadsworth and Pen's Wadsworth #2 Mines (Mine Index Nos. 514 and 1424) of the Pen Coal Company.

⁵ The foregoing is confirmed by the fact that proximate analyses of mine run coal of the Carr No. 2 Mine in St. Clair County and that of the Pen Coal Company's Mine in Shelby County indicate these following similarities, i. e., in moisture (1.40 and 1.17), volatile (33.60 and 35.95), fixed carbon (57.50 and 56.20), and ash (7.50 and 7.67). Although sulphur content and B. t. u.'s were not available for the Pen Coal Company's Mine, the witness asserted that the coals of the respective mines were also similar in these qualities.

⁶ Supplement No. 29 to I.C.C., A8010.

⁷ Prices for vessel fuel were proposed to equal those of the Cahaba mines, such as Mine Index Nos. 9, 11, 12, 17, 58 and 69.

¹ By an order dated August 20, 1942, granting temporary relief and conditionally providing for final relief, petitioner was granted the relief requested for all mines, except, among others, the Carr No. 2 Mine (Mine Index No. 1273) and the Tennessee Valley Mine (Mine Index No. 276) for which this proceeding was severed and scheduled for hearing.

² The schedules of effective minimum prices for District No. 13 refer to the code member as W. C. Carr (Carr Coal Co.).

⁸ The schedule of effective minimum prices for District No. 13 refers to this mine as the Tenn. Valley Mine (Mine Index No. 270) of R. D. Campbell (Tennessee Valley Coal Co.). Although originally designated as operating in the Talley Seam, it has since been ascertained that this mine operates in the Battle Creek Seam.

truck shipment with Subdistrict 2 truck mines in the same vicinity. The proposal to classify this mine for rail shipment depends on different factors. The record discloses that the coals of this mine are produced from the seam generally mined in Subdistrict 3. It appears further that these coals move over the N. C. & St. L. Railroad which connects the principal mines of Subdistrict 3, the Tennessee-Georgia area of District 13, and that freight rates from Bass, the principal shipping point, to the probable destination of this coal, are substantially similar to the freight rates of these Subdistrict 3 mines.² Inasmuch as the coals of the Tenn. Valley Mine will come into competition with the coals of the Subdistrict 3 mines rather than with those of the Subdistrict 1 mines, it was proposed that the Tenn. Valley Mine be classified for rail shipment the same as the Subdistrict 3 mines operating in the same seam. In the opinion of the witness, the requested relief will not disturb the coordinated relationship of District 13 coals. In the circumstances thus disclosed, I find that the Tenn. Valley Mine should be classified for rail shipment the same as Subdistrict 3 mines operating in the Battle Creek Seam.

In order, therefore, to reflect, as nearly as possible, the true value of the coals of the Carr No. 2 Mine and the Tenn. Valley Mine, and to preserve, as nearly as may be, existing fair competitive opportunities of producers in District 13, I find (1) that price classifications and minimum prices for the coals of the Carr No. 2 Mine should be established to equal those of similarly sized coals of Shelby County mines operating in the Wadsworth Seam; and (2) that the price classifications and minimum prices of the coals of the Tenn. Valley Mine should be established to equal those of similarly sized coals of Subdistrict 3 mines operating in the Battle Creek Seam. I find further that the foregoing price classifications and minimum prices comply with the standards set forth in sections 4 II (a) and (b) of the Act, and are required to effectuate the purposes thereof.

Upon the basis of the above findings of fact, and upon the entire record in this proceeding,

It is hereby ordered, That effective fifteen (15) days from the date hereof, § 333.6 (General prices), § 333.7 (Special prices)—(a) Prices for shipment to all railroads and for exclusive use of railroads, § 333.7 (Special prices)—(c) Prices

MEMORANDUM OPINION AND ORDER MODIFYING
ORDER

Memorandum opinion and order modifying order dated May 13, 1943, in the matter of the petition of District Board No. 15 for revision of the effective minimum prices for certain coals produced in District No. 15.

On June 7, 1943 the petitioner herein filed an application for modification of

the order issued in this docket on May 13, 1943, 8 F.R. 6921. Said application alleged that said order failed to give consideration to a change in the base price on certain sizes that became effective on October 1, 1942 in General Docket No. 21; that it failed to give consideration to the order dated July 29, 1942, 7 F.R. 6253, and the order dated August 22, 1942, 7 F.R. 6931, in Docket No. A-1533; that it failed to apply the freight rates made effective by order of Interstate Commerce Commission and Ex Parte No. 148 to minimum prices heretofore established; that it disturbed classification and coordination between and among minimum prices on coals for Marketing Area No. 75; petitioner requested that the order dated May 13, 1943 be modified to provide prices for Market Area No. 75 in accordance with "Appendix A" attached to said application.

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

To destinations in this Market Area, Production Group 1, unwashed "A" Grade coals establish the base, except to destinations within the Market Area where Production Group 2 active rail-shipping mines have intra-state mileage rates, or specific point to point rates, either of which are less than the published and effective group rates. To such destinations within the Market Area, Production Group 2 establishes the base.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 13 as Amended July 19, 1943]

Section 944.34 *Priorities Regulation* 13 is hereby amended to read as follows:

§ 944.34 *Priorities Regulation No. 13—(a) Purpose of this regulation.* This regulation, in general, describes the rules under which materials may be sold by persons who are not in the regular business of selling such materials. While most sales of this kind will be sales of frozen, idle, or extra materials, the regulation is broader in its scope. For example, a person who has idle materials on hand because his business has been converted to war work, or because the business he used to carry on has been stopped or limited by War Production Board orders, or whose contract has been cancelled or changed, may sell off the idle or excess materials only under the rules in this regulation and, if he follows this regulation, he does not have to look to any other order or regulation except in a few cases which are described below. This regulation also controls liquidation sales, bankruptcy sales, general auction sales, and other sales which are not considered sales in the regular course of business.

(b) *Special definitions used in this regulation.* This regulation deals only

with "special sales" of "industrial materials." As used in the regulation, those terms have the following meanings:

(1) "Special sale" means a sale of material by a person who does not, in the regular course of his business, sell that material in that form. A sale by a retailer or a wholesaler of items from his stocks is not a special sale because that is what the retailer or wholesaler makes a regular business of doing. For the same reason, a sale by a manufacturer of the product he makes is not a special sale. But if a manufacturer sells the raw material he has bought to use in making his regular product, it is a special sale because selling raw material is not his regular business. Or if a contractor has bought material to build a building and cannot finish it and sells off the materials, that is a special sale because his business is building houses, not selling lumber and nails and pipe. Liquidation sales by trustees in bankruptcies (unless they are continuing to operate a business) and general auctioneers are special sales as they are considered not to be regularly in the business of selling any particular products.

(2) "Industrial material" means the kind of material products are made out of, or which are put together to make other products. The definition includes simple material forms like pipe, metal sheet and rod, wire, lumber, chemicals and yarn. It includes both new and used materials. It does not include assembled parts or products, like motors, valves or drums or anything which has already been put together so that it is no longer in a simple form. Also, the definition does not cover any of the following:

(i) *Scrap.* There are special orders covering certain types of scrap and, except in those cases, scrap may be sold to a scrap dealer.

(ii) *Foods for humans or animals, medicines, tobacco, oils and fats.* These products are regulated by the War Food Administration or are rationed by another government agency and so the orders of the War Production Board do not apply.

(iii) *Tools.* This regulation does not cover cutting tools, hand tools or any other tools. There are special orders covering such items.

(iv) *Finished products of the kind that are sold at retail and that are bought to be used just as they are, and not to be used in making something else.* For example, an ash tray, or a towel or sheet, or a metal sign or a lightning rod is used just as it is and is not used to make another product. But nails or wire or pipe or chemicals or a bolt of cloth are bought to be used in making something

else and to be put together with other things, and they are covered by the regulation.

(c) *Kinds of special sales of industrial materials which may be made.* If a person wants to make a special sale (as described above) of an industrial material (as described above), the rules in this regulation apply and only these rules. There is no need to look at any other order or regulation, and these rules must be followed, no matter how the material was bought, and no matter what any other order or regulation provides. The only exceptions to this rule are stated in paragraph (f) (2). The types of special sales which may be made are the following:

(1) *Steel and Iron reported to Steel Recovery Corporation.* If the industrial material is iron or steel that has been reported as idle or excess inventory to the War Production Board, in care of the Steel Recovery Corporation in Pittsburgh, it may not be sold without permission from a regional office of the War Production Board or from the War Production Board office at Steel Recovery Corporation. Each regional office can only give permission to sell iron and steel which is located in that region, so, if application is made to a regional office, it must be made to the head office of the region in which the iron or steel is located. Either the buyer or the seller may apply for permission, in person, or by writing or telephoning. The permission can be given only if the person applying gives exact details of the proposed sale, including the names of the buyer and seller, the serial number and item number on the seller's report form, and an exact description of the weight, size, analysis, finish and form of the material and, if the buyer is using a CMP allotment to buy the material, the CMP symbol and number which he will use. The application should also tell what the iron or steel will be used for. It is necessary to keep close track of these sales so that the master record of idle and excess iron and steel can be kept up to date and material will not be listed as available if it has already been sold.

(2) *Materials on List A.* If the industrial material that the seller wants to sell is one of the materials listed on List A attached to this regulation or is made out of one or more of those materials (and is not iron or steel which has been reported as idle or excess inventory as described in subparagraph (1) of this paragraph), the following are the only kinds of sales that can be made, and if the sale is permitted under any one of the following subparagraphs, it may be made:

(i) A holder may sell freely to one of the following Government corporations,

or to anyone buying as agent for one of them: Commodity Credit Corporation, Defense Supplies Corporation, Metals Reserve Company, or Rubber Reserve Company.

(ii) A holder may sell if he has been given permission by the War Production Board to make the particular sale. This kind of permission can usually be given only by the War Production Board in Washington. Requests should be addressed to the Redistribution Division of the War Production Board and form WPB-1161 (PD-470) should be used in making the request. That form shows the kind of information which is needed before permission can be given. Copies of the form can be obtained in district or regional offices of the War Production Board.

(iii) A holder may sell freely to anyone if he has a total of less than \$100 worth of the particular material sold, unless it is one of the materials listed on the attached List B. In deciding whether the holder has \$100 worth, he must count all material of the same type and composition. For example, all bare copper wire, or all cattle hides, or all cotton duck. This paragraph does not mean that a person may sell freely lots worth less than \$100 if he has more than that amount. It only allows the sale if all he has of that kind of material is worth less than \$100.

(iv) If the material is copper, copper base alloy, aluminum or steel in a form described as a "controlled material" in CMP Regulation 1, the holder may sell it to fill an authorized controlled material order or to a buyer who gives him an order bearing a CMP allotment symbol and number and this certification:

The undersigned certifies that he is entitled under CMP regulations to place an authorized controlled material order for the above material.

Or the certification may be the optional form set out in CMP Regulation 7.

(v) Sales may be made in accordance with List A. That list has four columns showing classes of buyers who might want to buy materials. Opposite each material on the list in each column is shown whether, and under what conditions, sales can be made to the class of buyer described in the heading of the column.

(3) *Special orders.* If the War Production Board, by an order or in any other way, has ruled that all persons engaged in a particular business may sell or exchange materials between themselves, they can do so (unless the material is iron or steel covered by paragraph (c) (1)) and the other parts of this regulation do not forbid it.

(4) *Materials not on List A.* If the holder's industrial material is not on List A, he may sell freely to anyone.

(d) *Transfers within a company.* If a company wants to move material from one branch or subsidiary to another, but the transfer is not a sale because no money changes hands, the company should determine whether the branch or subsidiary which holds the material could sell it to the other for cash under this regulation. If so, the transfer may be made under this regulation even though it is not a sale.

(e) *Replacing material sold.* If a person sells material under this regulation to someone who gives him a priority rating or a CMP allotment symbol or number, the seller cannot use the rating or allotment to replace the material he has sold. The effect of the rating or symbol or number stops when the seller receives it.

(f) *Sales not covered by this regulation.* (1) If a sale is not a "special sale" (as described in paragraph (b) (1)) or if the item to be sold is not an "industrial material" (as described in paragraph (b) (2)), this regulation does not govern the sale and any other orders or regulations apply. There are special orders which deal with some kinds of equipment, and there are general rules in § 944.11 of Priorities Regulation No. 1. Any field office of the War Production Board can give information about these orders.

(2) If another order or regulation expressly mentions Priorities Regulation No. 13 and says that this regulation does not apply to a particular type of sale, then that order or regulation takes the place of this regulation. There are very few of those orders, principally relating to chemicals, and there are special rules which have been laid down for certain aircraft materials. Otherwise, there is no necessity of referring to any other order or regulation if the making of a special sale of an industrial material is involved. If any seller is allowed to make a sale under this regulation, the buyer is permitted to buy and accept delivery, except that:

(i) The buyer may not violate any regulation or order controlling the quantity of material which he may have or buy or receive or the amount of any product he may make or the use that he may make of any particular material. All the prohibitions in orders against the use of materials for particular purposes remain in effect.

(ii) If any order or regulation provides that a buyer of material must make any report or furnish any information either to the War Production Board or to the seller, this regulation does not excuse him from these requirements.

(iii) If any holder of material knows that a person who wants to buy it will

use it for a prohibited purpose or would have more of the material than he is permitted to have, the sale cannot be made.

(g) *What records and reports must be kept and made.* (1) Anyone who has reported copper or copper base alloy to the War Production Board, care of Copper Recovery Corporation, New York, and who sells or transfers an item that he has reported must immediately tell Copper Recovery Corporation about the sale so that its records can be kept accurate by taking that item off its list of available material. The report should show clearly the item or lot number on the form on which the seller reported the material. A simple way of giving notice is to send a copy of the invoice of sale.

(2) Any person making a sale under this regulation must keep sufficient records so that he can show that the sale was permitted under this regulation, but no reports of sales need be made except for copper and copper base alloys under the paragraph above, or unless List A has a note requiring reports.

(h) *Listing materials with the War Production Board.* If anyone has any extra, idle or frozen material that he wants to sell, he should tell his nearest War Production Board office about the material and they will try to help him.

(i) *Letters and questions.* Any letters or questions about this regulation should be sent either to the Redistribution Division of the War Production Board in Washington, marked "Ref: P. R. 13", or to any of the field offices of the War Production Board, marked for the attention of the Redistribution Manager.

(j) The reporting requirements in this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 19th day of July 1943.

WAR PRODUCTION BOARD,

Recording Secretary.

LIST A

NOTE: Schedule A redesignated List A; introductory explanation amended; items "Aluminum," "Copper," "Iron," "Steel and Wrought Iron" in Part I amended; items "Ethyl acetate," "Isopropyl acetate" in Part II amended; items "Acetaldehyde," "Alcohols, denaturants," "Congo Copal," "Methyl isobutyl ketone," "Staybelite," "Tapioca flour," added to Part II; items "Nitrocellulose, soluble," "Paraffin, chlorinated" revoked from Part II; items "Jewel bearing material," "Kapok (new)" amended in Part III; items "Broom corn," "Coir fiber and products," "Horse mane hair" added to Part III; July 19, 1943.

Explanation. This list is described in paragraph (c) (2) (v) of the regulation. In column (1) are listed the scarce materials that are restricted under the regulation.

Columns (2), (3), (4) and (5) each applies to a type of possible buyer. Opposite each material in each column is shown the conditions under which a special sale of the particular material may be made to the person described in the heading of the column.

Column (2) applies to persons who make or produce material in the form in which the holder bought it. If the holder bought copper wire, column (2) refers to a wire mill, which makes copper wire. If he bought a chemical, it refers to a company who makes or produces that kind of chemical.

Column (3) refers to persons who have a permitted use for the kind of material the holder has. If the holder has some leather to sell, column (3) would cover anyone else who has a permitted use for that kind of leather in making a product.

Column (4) refers to persons who buy new or used, rejected or second-grade materials and who rework them or make them over into something that is as good as new or can be used as if it were new. If the holder has some solvent that he has used until it is dirty or no longer usable, and some other person is in the business of cleaning the solvent so as to make it usable again, that other person would be a "reprocessor". Also, a secondary smelter who melted metal into alloy forms would be a reprocessor in column (4).

Column (5) relates to persons who are wholesalers dealing in the material the holder has, like a wholesaler in chemicals or textiles. Column (6) contains notes which should be read whenever a star (*) shows on the list.

If the list shows "No", it means that the holder cannot sell to the class of person mentioned in the column head without special permission of the War Production Board except when a note in Column (6) allows certain kinds of sales. Paragraph (c) (2) (ii) of the body of the regulation tells how to get permission.

If the list shows "PR" followed by a letter and number, like "PR AA-5", it means that the holder can sell to anyone who can give him an AA-5 priority rating for the sale, or a higher rating.

If the list shows "W.O.P.", it means the holder can sell to the person at the head of the column without any priority rating or allocation.

If the list shows "X", it means that there are no persons who fall in the description at the top of the column so far as that particular material is concerned.

As pointed out in the body of the regulation, no one may buy if in doing so he would break any rule about the amount of a material he may have, and no buyer may use material for a forbidden use. Also, the buyer must make any reports that are required by any order.

(e) This order shall take effect on April 5, 1943 and shall expire on August 5, 1943, at which time the restrictions contained in this order shall be of no further effect.

PART 1010—SUSPENSION ORDERS

[Amdt. 1 to Suspension Order S-318]

THE MAY COMPANY

The May Company has appealed from the provisions of Suspension Order S-318, issued May 12, 1943. After the respondent had presented its appeal and argument in person, including presentation of additional evidence, the Chief Compliance Commissioner, after reviewing the case, has denied the appeal, except that he has directed that paragraph (a) of the suspension order be modified

so as to remove maintenance and repair items from the prohibitive terms of the order.

In view of the foregoing, paragraph (a) of § 1010.318, Suspension Order S-318, issued May 12, 1943, is hereby amended to read as follows:

(a) Neither The May Company, its successors or assigns, nor any other person, shall order, purchase, accept delivery of, withdraw from inventory or in any manner secure or use material or construction plant in order to begin construction or to continue construction on the premises situated at Eighth and Broadway in Los Angeles, California, operated by The May Company as a department store, except as specifically authorized in writing by the War Production Board.

Issued this 19th day of July 1943.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-366]

RICHTER METALCRAFT CORPORATION

The respondent, Richter Metalcraft Corporation, a New York corporation, now located at 160 East First Street, Mount Vernon, New York, is a manufacturer of electrical items, primarily desk lamps and lighting fixtures.

During the period from November 14, 1942 to January 8, 1943, the respondent produced approximately 418 electric heaters to fill orders or contracts having a preference rating lower than A-2. This constituted a violation of Order L-65 as amended September 30, 1942.

As a result of having been engaged for ten years in the manufacture of lighting fixtures, and of the wide publicity given to restrictions on the production of electrical equipment and appliances for non-essential uses, the Richter Metalcraft Corporation must be considered as having known of the restrictions of Order L-65 on the manufacture of electric heaters.

The respondent's actions have hampered and impeded the war effort of the United States by diverting scarce materials to uses not authorized by the War Production Board. In view of the foregoing; *It is hereby ordered, That:*

§ 1010.366 *Suspension Order S-366.*
(a) Deliveries of material to Richter Metalcraft Corporation, its successors or

assigns, shall not be accorded priority over deliveries under any other contract or order, and no preference ratings shall be assigned, applied or extended to such deliveries by means of preference rating certificates, preference rating orders, general preference orders or any other orders or regulations of the War Production Board, unless hereafter specifically authorized in writing by the War Production Board.

(b) No allocation or allotment shall be made to Richter Metalcraft Corporation, its successors or assigns, of any material or product, the supply or distribution of which is governed by any order of the War Production Board, unless hereafter specifically authorized in writing by the War Production Board.

(c) Nothing contained in this order shall be deemed to relieve Richter Metalcraft Corporation, its successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except in so far as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect on July 20, 1943 and expire on October 20, 1943.

Issued this 13th day of July 1943.

[Revocation of General Preference Order M-118]

§ 1150.1 *General Preference Order M-118, as amended*, is hereby revoked, the said order having been superseded by Food Distribution Order 47, War Food Administration. This action shall not be construed to affect in any way any liability or penalty accrued or incurred under said Order M-118.

The order title "General Preference Order M-244" is hereby amended to read "Allocation Order M-244".

Section 3100.1 is hereby amended to read as follows:

The fulfillment of the requirements for the defense of the United States has created a shortage in the supply of furnace type carbon black for defense, for private account and for export; and the following order is deemed necessary in the public interest and to promote the national defense:

§ 3100.1 (Allocation Order M-244) —

(a) *Definitions.* (1) "Furnace type carbon black" means the black produced by the thermal decomposition of hydrocarbons and includes the soft and semi-reinforcing blacks, but excludes the channel carbon blacks and lamp blacks.

(2) "Supplier" means any person who produces furnace type carbon black, or who purchases furnace type carbon black for resale as furnace type carbon black.

(b) *Restrictions on delivery and acceptance of delivery.* (1) No supplier shall deliver furnace type carbon black to any other person, or divert furnace type carbon black to his own use, except as specifically authorized in writing by the War Production Board, upon application pursuant to Appendix A annexed.

(2) No person shall accept delivery of 5,000 pounds or more of furnace type carbon black in the aggregate from all suppliers during any calendar month, except as specifically authorized in writing by the War Production Board, upon application pursuant to Appendix B.

(3) No person shall accept delivery of between 100 and 5,000 pounds of furnace type carbon black in the aggregate from all suppliers during any calendar month, or place any purchase order for such delivery, unless and until he shall have furnished each supplier with a use certificate pursuant to Appendix C annexed.

(c) *Restrictions on use.* No person shall use furnace type carbon black, except as follows:

(1) In compounding rubber; or

(2) As specifically authorized in writing by the War Production Board, upon application pursuant to Appendix B annexed; or

(3) For any purpose, if the furnace type carbon black was in the user's inventory on October 16, 1942.

The use of furnace type carbon black in compounding rubber shall not be limited to the compounding of any particular type of rubber for any particular end use described in an application filed pursuant to Appendix B or C annexed, if, in view of changing circumstances, such limited use would not be practicable.

(d) *Special directions.* The War Production Board, at its discretion, may at

any time issue special directions to any person with respect to:

(1) Use, delivery or acceptance of delivery of furnace type carbon black; or

(2) Production of furnace type carbon black; or

(3) Preparation and filing of forms and certificates required by Appendices A, B and C annexed.

(e) *Notification of customers.* Each supplier is requested to notify his regular customers as soon as possible of the requirements of this order, but failure to receive such notice shall not excuse any person from complying with the terms hereof.

(f) *Miscellaneous provisions.* — (1) *Applicability of regulations.* This order and all transactions affected hereby are subject to all applicable War Production Board regulations, as amended from time to time.

(2) *Intra-company deliveries.* The prohibitions and restrictions of this order with respect to deliveries shall apply only to deliveries to other persons, notwithstanding the provisions of Section 944.12 (intra-company deliveries) of Priorities Regulation No. 1, as amended, except in the case of suppliers diverting furnace type carbon black to their own use.

(3) *Approval of reporting requirements.* Forms WPB-2945 (formerly PD-600) and WPB-2947 (formerly PD-602) have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(4) *Previous applications and allocations.* The amendment to this order on July 20, 1943, does not affect authorizations issued under this order prior to that date, and does not require renewal of applications filed previous to that date.

(5) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priority assistance.

(6) *Communications.* All reports required to be filed hereunder, and all communications concerning this order shall, unless otherwise directed, be addressed to: War Production Board, Chemicals Division, Washington, D. C. Ref.: M-244.

Issued this 20th day of July 1943.

PART 1382—HARDWOOD LUMBER

[MPR 432]

MAPLE, BIRCH, AND BEECH FLOORING

In the judgment of the Price Administrator it is necessary and proper to establish specific maximum prices for the sale of maple, birch, and beech flooring. The Price Administrator has ascertained and given due consideration to the prices of

¹ 8 F.R. 3706, 5484.

maple, birch, and beech flooring prevailing between October 1 and October 15, 1941, and has made adjustments for such relevant factors as he has determined and deemed to be of general applicability. So far as practicable, the Price Administrator has advised and consulted with representative members of the industry which will be affected by this regulation.

In the judgment of the Price Administrator, the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended. A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

§ 1382.302 *Maximum prices for maple, birch and beech flooring.* Under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250, Maximum Price Regulation No. 432 (Maple, Birch, and Beech Flooring) which is annexed hereto and made a part hereof, is hereby issued.

AUTHORITY: § 1382.302 issued under Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871.

MAXIMUM PRICE REGULATION 432—MAPLE, BIRCH, AND BEECH FLOORING

Article I—Scope of the Regulation

SECTION 1. *Prices higher than ceiling prohibited.* (a) On and after July 24, 1943, regardless of any contract or other obligation, no person shall sell or deliver and no person shall buy or receive in the course of trade or business, any maple, birch, or beech flooring for direct-mill shipment at prices higher than the maximum prices fixed by this regulation, and no person shall agree, offer, or attempt to do any of these things.

(b) Prices lower than the maximum prices may, of course, be charged and paid.

SEC. 2. *What products, transactions, and persons are covered.* This regulation covers all direct-mill sales of maple, birch, and beech flooring graded as such under the effective Grading Rules of the Maple Flooring Manufacturers Association. The regulation applies regardless of the kind of mill or plant in which the flooring is produced, and regardless of whether the particular item is specifically priced in the price tables or not. Any person who makes a sale of this kind, for himself or others, is subject to this regulation.

Article II—Maximum Prices and Terms of Sale

SEC. 3. *Maximum f. o. b. mill prices.* (a) The maximum f. o. b. mill prices for maple, birch, and beech flooring are set forth in Article IV.

(b) *Small quantities.* The following additions per M' may be made when the purchaser (or purchasers in the case of a pool car) orders an item consisting of

one species, thickness, and grade, in the following quantities:

Quantity ordered:	Addition per M'
3000 to 4000 feet.....	\$1.00
2000 to 2999 feet.....	2.00
1000 to 1999 feet.....	2.50
999 feet or less.....	3.00

SEC. 4. *Delivered prices.* The general rule is that the maximum delivered price shall be a price not higher than the f. o. b. mill maximum price plus the actual transportation charges paid or incurred by the seller in making shipment directly from the mill to the point of delivery required by the purchaser. However, it is permissible to quote and charge delivered prices based on the rail rate times the estimated weight as given in the following table:

SEC. 5. *Grades, services, or extras not listed.* (a) If a seller wishes to sell a grade or item which is not specifically priced in the price tables, he must apply to the Lumber Branch, Office of Price Administration, Washington, D. C., for a maximum price. He must provide the following information:

(1) The requested price;

(2) A complete description of the item to be priced;

(3) The price differential between it and the most comparable item in the price tables, in October 1941, from the seller's own records, or if that is impossible, from experience of the trade. If no established price differential which can be used for comparison existed, a detailed analysis of the calculation of the requested price should be furnished.

(b) As soon as the request has been filed, quotations and deliveries may be made at the requested price, but the final payment may not be made until the price has been approved. Action on the request may be by letter or telegram.

Article III—Specific Duties and Privileges and Prohibited Practices

SEC. 6. *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be ad-

justed upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration to whom the authority to grant such authorization has been delegated. The authorization will be given by order, except that it may be given by letter or telegram when the contemplated revision will be the granting of an individual application for adjustment.

SEC. 7. *Petitions for adjustment or amendment—(a) Government contracts.*

(1) The term "Government contract" is here used to include any contract with the United States or any of its agencies or with the government or any governmental agency of any country whose defense the President deems vital to the defense of the United States under the terms of the Act of March 11, 1941, entitled "An Act to promote the Defense of the United States." The term also includes any subcontract under this kind of contract.

(2) Any person who has entered into or proposes to enter into a "Government contract", who believes that the maximum prices established by this regulation impede or threaten to impede production of maple, birch, or beech flooring essential to the war program, may file an application for adjustment in accordance with Procedural Regulation No. 6, as amended, by the Office of Price Administration. As soon as the application is filed, contracts, deliveries, and payments may be made at the requested price, subject to refund if the requested price is disapproved or lowered. The seller must notify the buyer that the delivery is made subject to this refund.

(b) *Petitions for amendment.* Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1² issued by the Office of Price Administration.

SEC. 8. *Prohibited practices.* Any practice which is a device to get the effect of a higher-than-ceiling price without actually raising the dollars-and-cents price is as much a violation of this regulation as an outright over-ceiling price. This applies to changes in credit practices and cash discounts and to devices making use of commissions, services, transportation arrangements, premiums, special privileges, tying agreements, trade understandings and the like.

SEC. 9. *Records.* All sellers and all buyers of maple, birch, and beech flooring for direct-mill shipment must retain a copy of the invoice covering each transaction or maintain records in other form containing a complete de-

scription of the flooring, name and address of the other party to the transaction, date of sale, and the price paid, including any special addition for extra service, working, or specification. These records must be retained for two years, for inspection by the Office of Price Administration.

Sec. 10. Enforcement. Persons violating any provision of this regulation are subject to the criminal penalties, civil enforcement actions, suits for treble damages and proceedings for suspension of licenses provided for by the Emergency Price Control Act of 1942, as amended.

Sec. 11. Imports. The provisions of this regulation do not apply to the purchases, sales or deliveries of the commodities named in this regulation if they originate outside of and are imported into the continental United States. Sales, purchases and deliveries of such imported commodities are governed by the provisions of the General Maximum Price Regulation, and especially Revised Supplementary Regulation No. 12.

Sec. 12. Relation to other regulations. Any sale or delivery covered by this regulation is not subject to the General Maximum Price Regulation.

Article I—Prohibitions and Scope of Regulation

SECTION 1. *Prohibition against dealing in used fruit and vegetable containers and parts thereof at prices above the maximum.* On and after July 26, 1943, regardless of any contract or other obligation, no person, other than a "farmers' cooperative" may sell or deliver, and no person may buy or receive any used fruit and vegetable containers or their component parts at prices higher than those contained in this regulation. No person shall agree, offer or attempt to do these things.

The provisions of this regulation shall not be applicable to sales or deliveries which, prior to the effective date of this regulation, have been received by a carrier, other than a carrier owned or controlled by the seller, for shipment to the purchaser.

SEC. 2. *Less than maximum prices.* Prices less than the maximum prices established by this regulation may, of course, be charged and paid.

SEC. 3. *To what products, transactions and persons this regulation applies—(a) Products covered.* This regulation, under the term "used fruit and vegetable containers" covers all used containers and component parts made of wood, solid fiber, or corrugated board or a combination of any of these materials used for packaging, handling, storing or shipping fresh fruits and vegetables. This regulation does not cover cooperage products and veneer or plywood drums.

(b) *Transactions covered.* This regulation covers all sales and purchases of used fruit and vegetable containers; except that sales to members by "farmers' cooperatives," as herein defined, and sales made in the states of Arizona, Utah, Nevada, California, Oregon and Washington are specifically exempt from the coverage of the regulation.

No. 143—5

(c) *Persons covered.* This regulation extends to any person except a "farmers' cooperative," who makes a sale and any person who makes a purchase which is covered by the regulation.

Article II—Maximum Prices and Terms of Sale

SEC. 4. *Maximum prices.* The maximum prices, f. o. b. the seller's loading point, for used fruit and vegetable containers and parts are listed in the price tables of the Appendix (section 16) of this regulation.

SEC. 5. *Containers and parts not specifically priced.* Used fruit and vegetable containers and parts not specifically priced in this regulation are nevertheless subject to its terms. Any person desiring to buy or sell used fruit and vegetable containers not specifically priced herein shall make application to the Office of Price Administration, Washington, D. C., for approval of a price. The application shall contain a complete description of the container to be priced; the type of purchase or sale, that is, whether by an emptier, accumulator, dealer or the Army or Navy, and the requested price. The applicant may use the requested price, subject to adjustment upon the action of the Office of Price Administration, pending approval of the price. Approval may be by letter or telegram, and any requested price not disapproved within 15 days from receipt of application for approval shall be automatically approved until revoked or amended by the Office of Price Administration.

SEC. 6. *Additions for delivery.* On shipments by common or contract carriers the actual cost of transportation paid or incurred by the seller may be added to the maximum price, f. o. b. seller's loading plant. If shipment is by private truck owned or controlled by the seller, actual transportation costs may be added; except that in no case shall the addition exceed 80 percent of the common carrier truck charges for the same shipment.

SEC. 7. *What the invoice must contain.* All invoices must contain a sufficiently complete description of the containers or parts to show whether the price is proper or not. They must also show the name and address of the seller, the name and address of the purchaser, the quantity of each particular container, the origin and destination of the shipment, and any addition to the maximum price for delivery. In sales by dealers the invoice must also show the license number of the dealer.

SEC. 8. *Prohibited practices.* Any practice which is a device to get the effect of a higher-than-ceiling price without actually raising the dollars-and-cents price is as much a violation of this regulation as an outright over-ceiling price. This applies to devices making use of commissions, services, transportation arrangements, premiums, special privileges, tying-agreements, trade understandings, and the like.

Article III—Miscellaneous

SEC. 9. *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration to whom the authority to grant such authorization has been delegated. The authorization will be given by order, except that it may be given by letter or telegram when the contemplated revision will be the granting of an individual application for adjustment.

SEC. 10. *Applications for adjustment and petitions for amendment—(a) Government contracts.* (1) The term "government contracts" is here used to include any contract with the United States or any of its agencies, or with the government or any governmental agency of any country whose defense the President deems vital to the defense of the United States under the terms of the Act of March 11, 1941, entitled "An Act to promote the defense of the United States". It also includes any subcontract under this kind of contract.

(2) Any person who has made or intends to make a "government contract" and who thinks that a maximum price established in this regulation is impeding or threatens distribution of used fruit and vegetable containers which are essential to the war program and which are or will be the subject of the contract, may file an application for adjustment in accordance with Procedural Regulation No. 6,¹ issued by the Office of Price Administration.

(b) *Petitions for amendment.* Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1,² issued by the Office of Price Administration.

SEC. 11. *Records and reports.* (a) All persons making sales covered by this regulation which amount to \$50.00 or more in any one month must keep records which will show a complete description of the containers sold, the quantity, price, date of sale and the name and address of the buyer. Buyers must keep similar records including the name and address of the seller.

¹ 7 F.R. 5087, 5664; 8 F.R. 6175, 6174.

² 7 F.R. 8961; 8 F.R. 3313, 3533, 6173.

These records must be kept for two years for inspection by the Office of Price Administration.

(b) Any reports that the Office of Price Administration has required in the past, or requires from time to time must be submitted.

SEC. 12. *Enforcement.* (a) Persons violating any provision of this regulation are subject to the criminal penalties, civil enforcement actions, suits for treble damages, and proceedings for revocation of licenses provided for by the Emergency Price Control Act of 1942, as amended.

(b) War procurement agencies and their contracting or paying finance officers are not subject to any liability, civil or criminal, imposed by this regulation. "War procurement agencies" include the War Department, the Navy Department, the United States Maritime Commission and the Lend-Lease Section in the Procurement Division of the Treasury Department, or any of their agencies. Sales and purchases by such agencies are nevertheless subject to the terms of the regulation.

SEC. 13. *Licenses.* A license, as a condition of selling used fruit and vegetable containers or parts is required of every person covered by this regulation. Such license is hereby granted to all emptiers and accumulators. Dealers must make application to the Office of Price Administration for specific licenses within 30 days from the issuance of this regulation. The applicant must certify that he buys and sells used fruit and vegetable containers and parts; that he maintains from season to season enclosed warehouse space and facilities for selecting and for reconditioning such containers. The applicant must describe his warehousing and reconditioning facilities and the type of containers which he buys and sells. Licenses will be granted by letter within 30 days from receipt of the application to those who file such applications.

SEC. 14. *Definitions.* (a) *Emptier.* An "emptier," as referred to in this regulation, is any person who acquires for use or sale fruit or vegetables in containers and after removing the contents, sells the containers. Included in the term are grocery stores, canneries, restaurants, hotels, markets, institutions, etc. Specifically excluded are army and navy posts.

(b) *Accumulator.* An "accumulator," as referred to in this regulation, is any person who collects used fruit and vegetable containers or parts from emptiers for resale to dealers, growers, shippers,

etc. Included in the term are salvage warehouses (chain), commission merchants, peddlers, junkies, or open lot dealers.

(c) *Dealer.* A "dealer," as referred to in this regulation, is any person who buys and sells used fruit and vegetable containers and maintains from season to season enclosed storage space and facilities for selecting and/or reconditioning such containers.

(d) *Farmers' cooperative.* A "farmers' cooperative" as referred to in this regulation is any organization or association approved by the Farm Credit Administration and engaged in selling used fruit and vegetable containers or parts.

(e) *Reconditioned or selected containers.* A "reconditioned or selected container," as referred to in this regulation, is any used fruit or vegetable container

which has no broken or missing parts and which has utility equal to that of a new container.

SEC. 15. *Relation to other regulations—(a) General Maximum Price Regulation.* Any sale or delivery covered by this regulation is not subject to the General Maximum Price Regulation.³

(b) *Second Revised Maximum Export Regulation.* The maximum price for export sales of used fruit and vegetable containers is governed by the Second Revised Maximum Export Regulation.⁴

SEC. 16. *Appendix; maximum prices for used fruit and vegetable containers.* The maximum prices, f.o.b. seller's loading point, for used fruit and vegetable containers and parts are shown in the following tables:

[Docket Nos. A-227, A-573, A-1734]

TRUAX-TRAER COAL COMPANY, ET AL.

MEMORANDUM OPINION AND ORDER OF THE DIRECTOR

In the matter of the petition of Truax-Traer Coal Company and United Electric Coal Companies on behalf of themselves and certain retail dealers in the Chicago Area requesting free alongside prices for the retail dealers, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937; Docket No. A-227.

In the matter of the petition of Consumers' Counsel for free alongside prices from Districts 8 and 10 for the Hoskins Coal and Dock Corporation, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937; Docket No. A-573.

In the matter of the petition of Central States Collieries, Inc., for the establishment of minimum prices for f. a. s. shipments to certain retail dealers in Chicago; Docket No. A-1734.

The above-entitled proceedings were instituted upon petitions filed pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, by Truax-Traer Coal Company and United Electric Coal Companies (Docket No. A-227), Consumers' Counsel (Docket No. A-573), and Central States Collieries, Inc. (Docket No. A-1734), respectively, requesting the establishment of minimum prices for free alongside deliveries to specified retail coal dealers in the City of Chicago.

These three related proceedings raise questions involving the relationship of river and rail coals under the schedules of effective minimum prices established by the Bituminous Coal Division pursuant to the Bituminous Coal Act of 1937. The questions raised are complex and difficult and would justify extended investigation and analysis. I do not believe that this would be profitable, however, in view of the fact that the Act will expire August 24, 1943. The proceedings will accordingly become moot at that time. The record does not indicate that affected parties are being prejudiced by sales of

coal under existing established prices and further relief for the short period remaining before the Act expires would not appear to be necessary or appropriate.

Accordingly, *It is ordered*, That the petitions filed in each of the above-entitled dockets, are severally dismissed, effective midnight, August 23, 1943.

C. J. FANNON

MEMORANDUM OPINION AND ORDER TO CEASE AND DESIST

On June 1, 1943, after notice and hearing, Edward J. Hayes, a duly designated examiner of the Division, submitted a report in which he found that C. J. Fannon, operating the Blue Gem Mine, Mine Index No. 1648, near Barbourville, Kentucky, in District No. 8, wilfully violated the Bituminous Coal Code, the regulations thereunder and the order of the Director in General Docket No. 19, dated October 9, 1940, by selling and delivering on or about April 19, 1941 to J. R. Ketchum, approximately 150 tons of slack coals at a price of \$1.00 per ton f. o. b. cars at Barbourville siding, Barbourville, Kentucky, although no minimum prices had been established for the coals produced for rail shipment at Mine Index No. 1648 at the time of the sale.

The examiner recommended that an order be entered requiring code member, C. J. Fannon, to cease and desist from selling coal in violation of the order of the Director in General Docket No. 19, dated October 9, 1940 or from otherwise violating the Code and the regulations thereunder.

Opportunity was afforded all parties to file exceptions to the examiner's report. No exceptions have been filed.

I have considered the report of the examiner and find that it adequately and accurately reflects the evidence disclosed in the record. Upon the basis of the proposed findings of fact, proposed conclusions of law, and recommendations set forth in the report, and upon the entire record in this proceeding:

It is hereby ordered, That the proposed findings of fact and proposed conclusions of law of the Examiner are approved and adopted as the findings of fact and conclusions of law of the Director;

It is further ordered, That C. J. Fannon, his agents, employees, representatives, heirs and assigns and all persons acting or claiming to act in his behalf, cease and desist from violation of the order of the Director, dated October 9, 1940, in General Docket No. 19 or from otherwise violating the Act, the code or orders, rules and regulations issued thereunder.

Notice is hereby given that upon failure or refusal to comply with this order, the Division may apply to a United States Circuit Court of Appeals for the enforcement thereof, or may otherwise proceed as authorized by the Act.

In the matter of W. A. Edie and Harold C. Edie, individually and as copartners, doing business as W. A. Edie & Son, code members, District No. 4.

On May 28, 1943, after notice and hearing, W. A. Cuff, a duly designated Examiner of the Division, submitted a report in which he found W. A. Edie and Harold C. Edie, individually and as copartners doing business as W. A. Edie & Son, operating the Edie Mine, Mine Index No. 1729, in Tuscarawas County, Ohio, Subdistrict No. 4 of District 4, wilfully violated section 4 II (e) of the Act and corresponding section of the code by selling and delivering to various persons during the period from January 1, 1941, through March 31, 1942, 445 tons of $\frac{3}{4}$ " slack coal and during the period February 1 through November 30, 1942, 60 tons of $\frac{3}{4}$ " lump coal at prices below the effective minima therefor established in the schedule of effective minimum prices for District No. 4 for truck shipments which were \$1.80 and \$2.25 per net ton f. o. b. the mine, respectively.

Edie to cease and desist from selling coal at prices below the applicable minimum prices established by the Division or from otherwise violating the Act, the code, and orders, rules and regulations issued thereunder.

I have considered the report of the examiner and find that it adequately and accurately reflects the evidence disclosed in the record. It is hereby ordered, That the proposed findings of fact and proposed conclusions of law of the examiner are approved and adopted as the findings of fact and conclusions of law of the Director;

It is further ordered, That W. A. Edie and Harold C. Edie, individually and as copartners doing business as W. A. tion 4 II (e) of the Act, the corresponding section of the code, or from otherwise violating the Act, the code, or orders, rules and regulations issued thereunder.

for revision of effective minimum prices for forked coal produced from the Cable Coal Mine (Mine Index No. 3299), for truck shipment pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

On June 17, 1943, after notice and hearing, Charles S. Mitchell, a duly designated examiner of the Bituminous Coal Division, filed a report in which he found that the effective minimum price for truck shipment of the forked coal (Size Group 3) produced at the Cable Mine (Mine Index No. 3299) of Taylor Cable, located in Wolfe County, Kentucky, Subdistrict 3, should not be reduced 35 cents per ton f. o. b. the mine, as requested in the petition herein, and recommended that an order be entered denying the petition.

An opportunity to file exceptions to the Report of the Examiner was afforded all interested parties. As of the date hereof, no such exceptions have been filed.

[Region II Order G-1 Under Rev. MPR 122]

SOLID FUEL IN MIDDLESEX COUNTY, N. J.

Order No. G-1 Under § 1340.259 (a) (1) of Revised Maximum Price Regulation No. 122 (formerly Order No. 1).

It is the judgment of the Regional Administrator that there exists or threatens to exist in Middlesex County in the State of New Jersey, a shortage in the supply of a solid fuel which is essential to a standard of living consistent with the prosecution of the war; that such local shortage will be substantially reduced or eliminated by adjusting the maximum prices of dealers in Middlesex County for such solid fuel; and that such adjustment will not create or tend to create a shortage, or a need for increase in prices, in another locality, and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended.

Accordingly, pursuant to the Emergency Price Control Act of 1942, as amended and § 1340.259 (a) (1) of Revised Maximum Price Regulation No. 122, and Revised Procedural Regulation No. 1, and for the reasons set forth in

an opinion to be issued forthwith, *It is ordered, That:*

(a) On and after January 16, 1943, the maximum prices of dealers in Middlesex County, New Jersey, for the sale and delivery in Middlesex County of the sizes of anthracite coal set forth in the following schedules shall be the applicable adjusted maximum prices specified therein:

(1) *Maximum delivered prices.*

Size	Price per net ton delivered	Price per 1/4 net ton delivered
Egg, stove and nut....	\$12.60	\$6.55
Pea.....	10.80	6.65
Buckwheat.....	9.00	4.75
Rice.....	8.00	4.25

(2) *Maximum prices at the dealer's yard.*

Size	Price per net ton	Price per 1/2 ton	Price per cwt. for sales of 100 lbs. and over, but less than 1/2 ton	Price on cwt. basis for sales of less than 100 lbs.
Egg, stove, and nut.	\$10.60	\$5.30	\$.65	\$.75
Pea.....	9.35	4.70	.60	.65
Buckwheat.....	7.70	3.85	.45	-----
Rice.....	6.70	3.35	.45	-----

(b) The foregoing adjusted maximum prices include the amount of the railroad freight rate increase incurred by dealers in Middlesex County as a result of the Interstate Commerce Commission's order in its Docket Ex Parte 148, effective March 18, 1942, and such railroad freight rate increase may not be added to the adjusted maximum prices, notwithstanding the provisions of § 1340.257 of Revised Maximum Price Regulation No. 122.

(c) Each dealer in Middlesex County may add to the adjusted maximum price for each size of fuel set forth in the above schedules any increase in his supplier's maximum price to him for the same fuel over such supplier's present maximum price to him for the same fuel; and may also add to such adjusted maximum price the amount authorized by Section 1340.265 of Revised Maximum Price Regulation No. 122 for taxes actually paid or payable by such dealer.

(d) The adjusted maximum prices prescribed herein shall not apply to sales and deliveries by dealers in Middlesex County to persons outside of such county.

(e) This order is subject to revocation or amendment by the Regional Administrator or by the Price Administrator at any time hereafter, either by special order or by price regulation issued hereafter, or in supplement or amendment hereafter issued as to any price regulation, the provisions of which may be contrary hereto.

(f) *Definition.* When used in this order:

(1) The size of anthracite coal described as egg, stove, nut, pea, buckwheat and rice shall refer to the same sizes of anthracite coal as were sold by the dealers in Middlesex County with such designation during December, 1941.

(2) The term "maximum delivered prices" used in paragraph (a) (1) hereof shall refer to the maximum prices for delivery to the purchaser's premises or to such other place in Middlesex County as the purchaser may designate.

(3) Unless the context otherwise requires, the definitions set forth in Revised Maximum Price Regulation No. 122 shall apply to terms used herein.

Issued January 16, 1943.

The Alabama-Georgia Syrup Company, Montgomery, Alabama, has made application under § 1499.3 (c) of General Maximum Price Regulation for determination of a maximum price for reconditioned used standard half barrels of approximately 35 gallons capacity, mainly of cypress construction used in the packaging of raw sugar cane syrup, and known to the trade as "syrup barrels." Due consideration has been given to the application, and an opinion in support of the Order has been issued simultaneously herewith. For the reasons set forth in the opinion under the authority vested in the Regional Administrator of the Office of Price Administration for Region IV by Administrative Order 25, (redesignated as General Order No. 32) issued and effective September 1, 1942, and in accordance with § 1499.3 (c) of General Maximum Price Regulation, It is hereby ordered, That:

II. Requirements of marking. All reconditioned used syrup barrels sold pursuant to this order shall be marked by the Alabama-Georgia Syrup Company prior to sale and delivery by branding, stencil, or other customary permanent means in such a manner that such unit shall be capable of immediate identification as an Alaga barrel.

III. Requirements of notification and posting. (1) The Alabama-Georgia Syrup Company shall on or before the

effective date of this order, deliver a copy of such order to each retail dealer to whom deliveries of any reconditioned used syrup barrels have been made during the 1941 selling season, or during that portion of the 1942 selling season prior to the effective date hereof; and shall deliver a copy of such order to any other retail dealer on or before the first delivery of any such barrel to such other retail dealer after the effective date hereof.

(2) Every person making sales subject to this order shall post a copy of this order in a conspicuous place in his place of business, and shall make such order available during business hours for examination by any person requesting to see same.
